LEONARD'S SEEDS

1912

ESTABLISHED 1884

INCORPORATED 1901

LEONARD SEED CO.

OFFICE AND WHOLESALE WAREHOUSE

228-230 WEST KINZIE STREET

MARKET
GARDENERS' STORE,
810 W. RANDOLPH ST.

CHICAGO

BRANCHES
AT ROSELAND
AND JEFFERSON PARK

OUR REPUTATION has been built up by furnishing seeds of the best quality as to purity and germination, and we shall always endeavor to furnish the best seeds that can be procured, and make prices as reasonable as possible.

Not bound by these prices for any definite time or quantity, and subject to advance without notice.

Prices quoted are f. o. b. Chicago. Bags, boxes and barrels, to insure safe transportation, are charged for at cost. Proportionately higher prices will be charged for quantities less than one-quarter pound or one-quarter bushel.

TERMS: Garden Seeds, Net Cash, June 1st, 1912, without regard to date of purchase, or a discount of 1 per cent per month for unexpired time if paid before maturity.

Grass seeds, potatoes, field seeds, onion sets and sunflower, net cash, without any time or discount whatever.

Our telegraph code is the one adopted by the American Seed Trade Association.

WE GIVE NO WARRANTY express or implied as to purity, description, quality, productiveness or any other matter of any Seeds, Bulbs or Plants we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

WEBBER WAX BEANS

Webber Wax Beans

A new Wax Bean of distinct character. The vine is strong, holding the pods well up, the pods are of an exceedingly bright yellow color, handsomer in this respect than any other wax bean; in shape the pods resemble Wardwell's wax but are rounder and more meaty. The color of the seed is yellow. Price bu. \$3.25

LEONARD'S PHEASANT EYE

Leonard's Pheasant Eye Beans

A valuable new green podded variety. Vines hardy, sturdy, well leafed. Pods long, meaty, stringless and of excellent quality. Originated from plant found in Bountiful; it retains all the good points of that variety, with added symmetry of pod.

Price bu. \$3.25

Thousand Headed Kale

Per pound 20c; per 100 pounds \$18.00.

BEETS—For the Table.

Leonard's Egyptian. A strain of beet similar to Crosby, but of darker color and finer form. For the past fourteen years this strain has held first place on the Chicago market as an early bunching beet. It excels any other stock for early market use.

Cabbage Seed is One of Our Leading Specialties.

Chicago is and has been one of the most important growing and shipping centers for cabbages. Many carloads are shipped to all points of the country from Chicago every year. We are headquarters for such noted varieties as Holland, Luxemburg, Blue Fottlers and Faultless, and the excellent reputation of Leonard's strains of cabbage seeds is known wherever cabbages are raised.

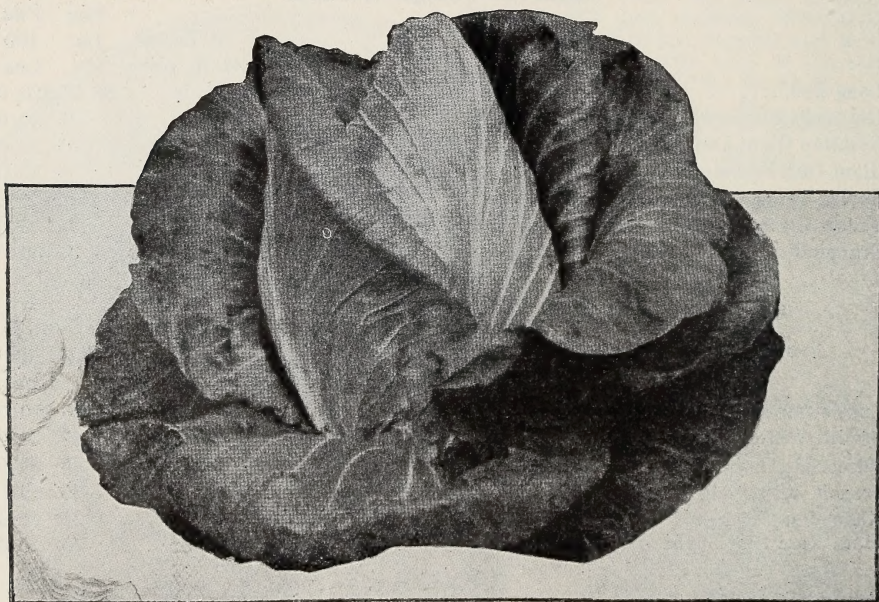

HOLLAND CABBAGE

HOLLAND CABBAGE.

LEONARD'S STRAIN.

Seed of the **true Holland Cabbage** is not plentiful; it is produced on a limited area at one or two points only. Seed grown anywhere else deteriorates, fails to show up the proper characteristics and is but a very unsatisfactory substitute. Since 1896 we have succeeded in securing the seed crops of a grower of this cabbage which for uniformity have met the requirements of the large cabbage growers of Chicago, Racine and other Holland Cabbage shipping points, and which have made for us a reputation for handling the **best strain** of this important article. We introduced the seed as **LEONARD'S STRAIN** and our sales are only limited by the quantity of seed our grower can produce. We do not hesitate to say that Leonard's Strain of Holland Cabbage is the purest to be had, **Lb., \$1.40.**

LEONARD'S STRAIN

EARLY JERSEY WAKEFIELD

EARLY JERSEY WAKEFIELD CABBAGE.

OUR SELECT STOCK. This is one of the most important varieties in the list. Great care must be exercised in the growing of the seed to have it pure and true to type. We give especial attention to the growing of our Wakefield stock, and its uniform excellence is a source of gratification to us. Our home gardeners are among the most critical buyers of cabbage seed in this country, and the fact that our stock suits them better than any other they can get gives assurance that it is what it should be. **Lb., \$1.00.**

STANDARD VARIETIES OF CELERY

GOLDEN SELF BLANCHING

GOLDEN SELF BLANCHING

The best of all early self blanching varieties. It is ready for use early, blanches easily, and is large in size. Lb., \$12.00

WHITE PLUME

The plants grow rapidly and blanch easily during the summer months. Lb., \$1.00

WINTER QUEEN

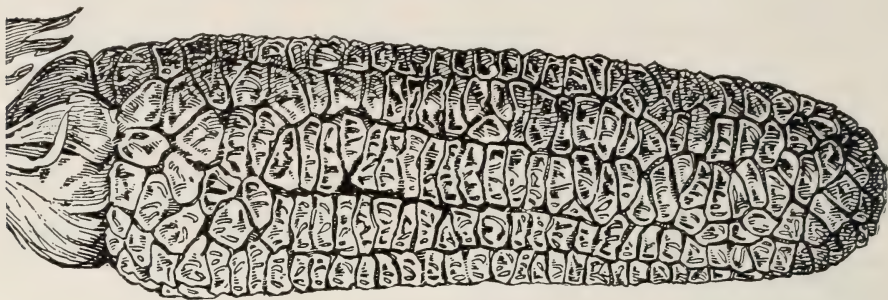

This is without doubt, the most valuable variety of celery for winter and spring use. Lb., 80c.

WHITE PLUME

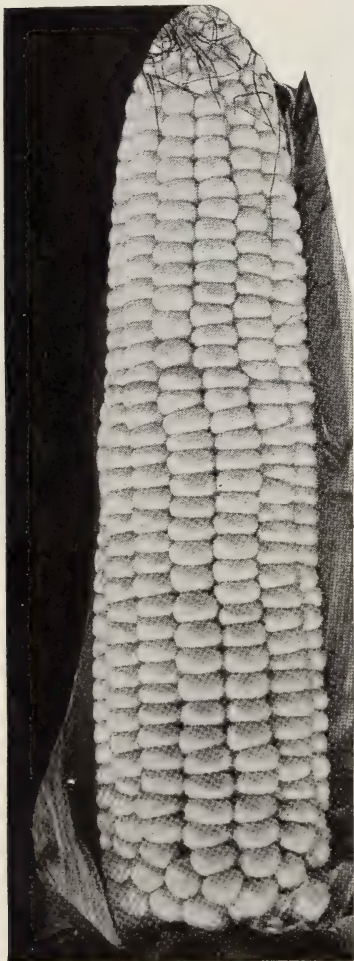

WINTER QUEEN

EARLY MINNESOTA

EARLY MINNESOTA SWEET CORN.

This old and deservedly popular variety is one of the best early sorts for the market or the private garden. Stalks about five feet high with no suckers, and bearing one or two ears well covered with husks. Ears long, eight rowed. Kernels very broad, sweet and tender, not shrinking much in drying. Bushel, \$2.50.

**MAMMOTH WHITE CORY.****CHICAGO PICKLING CUCUMBER.****CHICAGO OR WESTERFIELD'S
PICKLING CUCUMBERS.**

A variety esteemed above all others by Chicago market gardeners, and grown extensively for the large pickling establishments in this vicinity. Fruit medium length pointed at each end, with large and prominent spines, color a deep green. It combines all the good qualities of an early cucumber. Leonard's Strain, lb., 45c.

MAMMOTH WHITE CORY SWEET CORN.

The ears are twelve rowed, white cobbled and covered with very large white grains of good quality. No other sweet corn will find as ready sale in the market which is supplied with mammoth white corn, and the gardener who wishes to get the bulk of the trade should make his plantings of this for a first crop. Bushel, \$3.00.

LEONARD'S SNOWBALL CAULIFLOWER

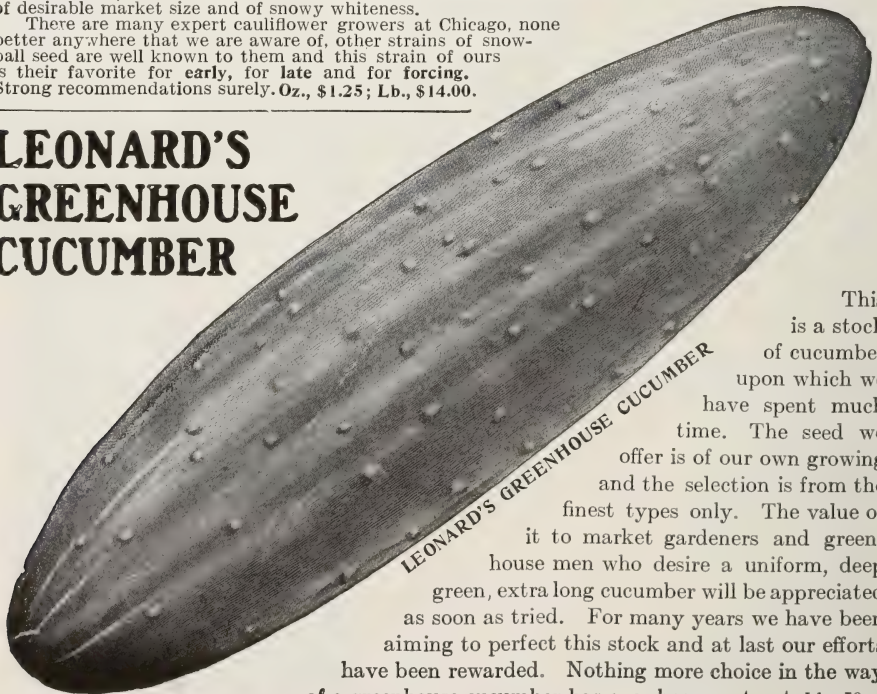

LEONARD'S SNOWBALL CAULIFLOWER.

The leading Cauliflower at Chicago, and unquestionably the purest strain of "Snowball" Cauliflower seed to be had. Heads uniform; of desirable market size and of snowy whiteness.

There are many expert cauliflower growers at Chicago, none better anywhere that we are aware of, other strains of snowball seed are well known to them and this strain of ours is their favorite for **early**, for **late** and for **forcing**. Strong recommendations surely. **Oz., \$1.25; Lb., \$14.00.**

LEONARD'S GREENHOUSE CUCUMBER

LEONARD'S GREENHOUSE CUCUMBER

This is a stock of cucumber upon which we have spent much time. The seed we offer is of our own growing and the selection is from the finest types only. The value of it to market gardeners and greenhouse men who desire a uniform, deep green, extra long cucumber will be appreciated as soon as tried. For many years we have been aiming to perfect this stock and at last our efforts have been rewarded. Nothing more choice in the way of a greenhouse cucumber has ever been sent out Lb., 50c.

STANDARD MUSK MELONS ROCKY FORD

ROCKY FORD.

OSAGE, OR MILLER'S CREAM

A remarkably fine variety, and a very profitable sort for market gardeners, as it is fully established as a standard sort, and will ever remain so. It is of medium size, oval in form, dark green in color, handsomely netted and slightly ribbed. The flesh is extremely and uniformly thick, of firm texture, rich salmon in color: highly flavored and delicious to the rind. Cavity very small. It is a remarkable keeper and good shipping melon. Lb. 45c.

OSAGE MUSK MELON.

TIP TOP MELON.

ROCKY FORD

This Musk Melon is the oval strain of Netted Gem as improved by the melon growers in the vicinity of Rocky Ford, Colorado. They ship their melons from that point to Eastern markets with much profit. The melons grown by them are so fine in quality as to outsell all others, and the demand for such melons has been far beyond the supply. Lb. 35c.

TIP TOP

A splendid yellow fleshed melon of good size and exceptional quality. Our stock of this melon is grown especially for us, and the illustration herewith is a photograph of a specimen from which our seed is taken. The verdict of all who use the Tip-Top melon is, that no matter what the fruit, whether large or small it is good, being sweet and delicious down to the rind. With market gardeners the Tip Top is becoming a very popular variety on account of its handsome appearance which make it a ready seller wherever offered. Lb. 60c.

LEONARD'S GLOBE ONIONS

LEONARD'S YELLOW GLOBE ONION

LEONARD'S YELLOW GLOBE

The most popular onion seed for a market crop at Chicago is **Leonard's Yellow Globe**. The soil around Chicago is particularly adapted for onion growing. The size of the town makes a large market. The high price is paid for the best article, consequently seed that produces the best onion is the most popular.

It is the same in any other growing section where a yellow skinned sort is needed. A trial of our Yellow Globe Seed is sufficient to make good our claims for it as superior, uniform and paying stock of onion seed. **Lb., \$1.50.**

LEONARD'S WHITE GLOBE

White skinned onions when successfully grown are by all means the handsomest and will usually bring more money per bushel than either of the other colors. It is harder to grow them to perfection than red or yellow, but many large growers score big returns from a crop of whites. This strain of White Globe is uniform in size and shape with our Yellow and Red Globe.

LEONARD'S RED GLOBE

The deep dark red color of our Red Globe is one of its superior points, while in shape and size it is a counterpart of our popular Yellow Globe.

In the Michigan, Indiana and Ohio onion sections as well as in Illinois and Iowa this strain of Red Globe produces the prize winning red onions.

Where competition is keen it will pay large returns for the additional cost of the seed. **Lb., \$1.50.**

**Leonard's
Potlatch**

Natural Size

PEAS—Continued.

LEONARD'S POTLATCH. Strong, vigorous vines of even growth, 20 to 24 inches in height, with luxuriant dark foliage, bearing pods medium green in color, $3\frac{1}{2}$ to 4 inches in length. Broad and pointed at the ends. No variety known will produce more pods, and no pods could possibly shell out better.

THE POTLATCH is a variety from which anyone may expect great things. Fit for table use 61 days from planting. Seed green, wrinkled, large in size. We consider ourselves very fortunate in having secured and introduced this pea.

Rocky Point, N. C. June 24, 1911
LEONARD SEED CO.,
Chicago, Illinois.

Gentlemen:—

Yours of 19th received some days ago, and in reply to same, I planted one bushel of Potlatch Peas Feb. 1, 1911; about $\frac{1}{2}$ acre used 6 hundred lbs. 8-4-4 guano, 75 lbs. nitrate of soda when in bloom, also put 15 one horse-cart loads stable manure under them.

Net proceeds \$189.50 from one bushel seed. Did not have enough rain to wet the ground from planting until all shipped. With good seasons two bushels will make 200-250 bushel baskets. They are the finest peas I ever saw. I had to divide with others is why I did not plant more. Be sure and save me 45 bushels of them this fall. Want them shipped Dec. 1, 1911.

Yours truly,

W. W. PEARSALL.

The following report, dated Chicago, July 30, 1906, from Dr. W. H. Stennett, auditor of expenditures, Chicago & Northwestern Railway Co., and who is also a specialist in amateur gardening, is a comprehensive, concise and valuable testimonial: "POTLATCH.—Sown May 15, 15 inches high, foliage a very dark green, bloomed July 4, fit to eat July 22. pod and grain large, sweet and excellent. When cooked, they were the greenest pea I have ever seen; in fact, greener than any 'French' pea that all know are made green by chemicals.—W. H. STENNETT."

LEONARD'S WARTY HUBBARD SQUASH

Introduced by us in 1894. This is a photograph of the original stock.

Leonard's Warty Hubbard.

Leonard's Warty Hubbard. This is the best strain of Hubbard Squash. By its rough, hard, warty shell and its dark olive green color it can be distinguished from any other strain either in the field or on the market. It was introduced by us in 1894, and since that time under different names at different places, it has been given out to all who have called for the best stock of Hubbard Squash. We have maintained its purity and offer headquarters' seed,

The Betascale

(BEAT-A-SCALE)

SEED MEASURING GLASS

SIMPLE—ACCURATE—SAVES TIME AND LABOR

Measures from $\frac{1}{8}$ oz. to $\frac{1}{4}$ lb.

Some of the advantages gained by using the
BETASCALE Measuring Glass

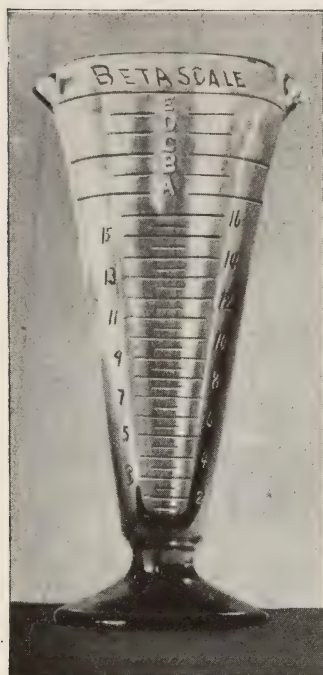

- 1.—You give balance weight, not down weight.
- 2.—By the use of *Betascale* glass you can wait on customer in 1-5 time than by the old way of using a scale.
- 3.—You do not have to consult a catalog; one glance at the chart shows price and weight.
- 4.—On account of shape of measuring glass the quantity of seed looks more than it does in large scoop of the scale and satisfies the customer.
- 5.—By its use a boy or girl can wait on a customer as well as the proprietor.
- 6.—After using the *Betascale* glass a little while you will be delighted at the ease with which you can fill orders for seed and thus make your seed department one of your most profitable branches.

With each glass we furnish a chart with numbers corresponding with those on glass showing how to measure out 38 varieties of seed: vegetable, herbs, sweet peas, nasturtium, etc., etc.

THE BETASCALE

Leonard's Seed Display Jars

We have received a great many requests from our customers, who wish to improve their Bulk Seed Department, by using an up-to-date serviceable Jar at a reasonable price. We are having made for us an ideal Jar for that purpose, and can now offer them to our customers desiring to make that branch of their business attractive and convenient. These Jars will hold about 2 lbs. of Garden Seed. We furnish beautiful Lithograph Labels free like Label on Jar (see cut).

Note—These jars are sold to you at cost. Our aim is to help you improve your Bulk Seed Business.

Size of Jars $3\frac{1}{2} \times 3\frac{1}{2} \times 10$ in.

Put up 2 Dozen in Box for \$3.75

It is likely that many of our customers will want more than the box of 2 dozen. In this case we will supply 2 boxes or 4 dozen for \$7.25.

Where customers wish to try a smaller quantity than the regulation box of 2 dozen, we will make the price \$2.00 per dozen.

LEONARD'S SEED DISPLAY JARS

CHOICE FLOWER SEEDS.

In Bulk.

We do not sell less than 1 oz. of sorts priced at 20 cts. or under, but we will put up $\frac{1}{2}$ oz. of seeds priced at 25 cts. per oz. and over; $\frac{1}{4}$ oz. of seeds priced at 75 cts. per oz. and over; $\frac{1}{8}$ oz. of seeds priced at \$2.00 per oz. or over.

ASTERS

OUR ASTER SEEDS are the product of the best specialists of both Europe and America. None better can be offered.

CHRISTMAS TREE ASTER

This Aster has a pyramidal branching form of growth, giving it the shape of a miniature tree. A very early profuse bloomer, growing about fifteen inches high, but covering an area of from twenty inches to two feet in diameter. Perfect double flowers, all colors, mixed oz., \$1.25.

CHRISTMAS TREE ASTER.

Giant Comet. Flowers immense in size, often six inches across, composed of long, narrow, wavy, twisted petals, gracefully formed into loose, densely double flowers, mixed oz., \$1.25.

GIANT COMET ASTER.

SEMPLS BRANCHING

Large plants that come into bloom quite late. Flowers are very large, and are often taken for chrysanthemums. Borne on exceedingly long stems, and are great favorites for florists, mixed oz., \$0.75

VICTORIA

The best and handsomest variety for size, color and form. The profusion of bloom is enormous. Flowers very double, and 4 inches across, mixed oz., \$1.00.

NASTURTIIUM—OAK PARK COLLECTION

The illustration is a photograph of a spray of flowers grown from this exquisite blend of bedding nasturtiums. It is well adapted for ribbon beds or borders, and is strikingly effective in masses. This blend contains seed saved from the largest-flowering, most beautiful and varied collection ever sent out. For summer flower-beds nothing can surpass them; the plants form perfect mounds about one foot high by one foot across. Seed sown in the open ground in the spring will produce plants that commence blooming during early summer and continue until severe frosts. They are of the easiest possible culture, and are never troubled with insects.

It is all in the Blending. You may expect results when you plant the seed—that is selected for a given purpose. Our

OAK PARK BLEND of nasturtiums is prepared with the view to give the finest effect in ribbon beds, borders or masses.

We leave nothing undone to maintain in our **OAK PARK BLEND** of nasturtium seed the choicest and most varied colorings. All the new hybrids are added as soon as their merit is established, and the strain is thereby kept far above the standard of other blends. Oz., 5c.; lb., 50c.

NASTURTIIUM—OAK PARK COLLECTION.

WHAT OTHERS SAY:

"Your Oak Park Blend of nasturtiums is the finest I ever planted."

"The Oak Park nasturtiums made the most beautiful flower bed we ever saw."

"There must have been twenty different combinations of color in that Oak Park nasturtium."

"The Oak Park Blend of nasturtiums was highly satisfactory."

"I was agreeably surprised at the fine show made by your Oak Park Blend of nasturtiums."

"I never before had such a fine show of flowers as in the beds planted with your Oak Park nasturtiums."

PANSIES.

Our Pansy Seeds are the product of the best specialists in their respective classes. The mixtures contain the various colors blended in proper proportion.

GIANT FANCY STRIPED.

An infinite variety of beautiful colors, curiously striped and flamed. Our stock is very select. The plants are vigorous and compact in growth. Immense flowers of fine form and texture, rich and velvety. 'oz. \$0.90

GIANT FANCY STRIPED PANSY.

MASTERPIECE.

This strain comes nearer to the Double Pansies than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often three inches across, and the color variations and combinations are odd and striking. oz. \$2.00

MASTERPIECE PANSY.

LEONARD'S GIANT PRIZE CHOICE- EST MIXED.

Enormous sized Pansies of rich velvety texture. Every one is different and all are distinctly marked with rich and varied shades and colorings. These pansies are the most perfectly formed of any we have ever seen. Flowers are carried on good strong stems and are of good substance. Their robust growth makes them a general favorite. Every lover of pansies should try this strain. oz. \$1.00.

DOUBLE PETUNIA

Petunias.

Double Large Flowered. They embrace a wide range of colors including a delicate mauve, porcelain blue, white, garnet, and velvety shades. The beautiful blue and white flowers, freely produced are particularly noteworthy. This carefully hybridized seed will yield a good percentage of double flowers. $\frac{3}{8}$ oz. \$5.00.

Large Flowering Fringed Sorts. (Fimbriata) A superb strain of elegant finely fringed flowers, measuring over 4 inches in diameter, remarkable brilliancy and variety of color. $\frac{3}{8}$ oz. \$6.00.

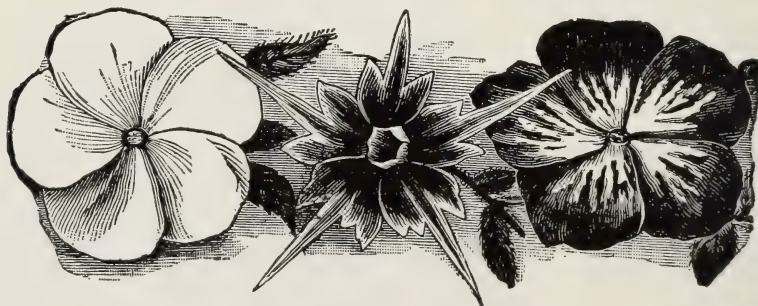

Giants of California. These Petunias have been widely advertised of late and are remarkably fine. The flowers are very large and the colors embrace every conceivable shade of crimson, white, violet, lavender, etc. $\frac{1}{4}$ oz. \$1.50.

POPPY

Poppy.

A showy and easily cultivated hardy annual with large brilliant colored flowers; growing freely in any garden soil, and producing a fine effect in large clumps or mixed beds. Sow early in the spring where they are to remain, as they will not bear transplanting, all sorts mixed, lb. \$0.40.

Phlox Drummondi.

Improved Large Flowering Varieties. An indispensable, constant blooming favorite, which should occupy a prominent place in every garden for clumps or massing. Very desirable for their duration of bloom and display of brilliant, dazzling colors. Hardy annuals. The large flowering sorts are extraordinarily fine. oz. \$0.30; lb., \$3.50.

Fimbriata. The petals are beautifully imbricated, most of them drawn out to long points, giving the flower a regular star-like form, whose beauty is improved by broad, white margins. The strain embraces all colors. oz. \$0.50.; lb. \$6.00.

Star of Quedlinburg. Different from all other phloxes. The center petals, which are five in number, are elongated from four to five times the length of the lateral ones. oz. \$0.40.; lb., \$4.50.

Oddity, light pink shading to crimson pink.	20	18 00
Orange Prince, bright orange pink, wings pink.	25	

SWEET PEAS.

COUNTESS SPENCER.

Countess Spencer. Here we have a new and distinct type and form in Sweet Peas. The flower stems are unusually long and the flowers are so set on the stem that there is a graceful fluffiness to a bunch of them in distinct contrast to the ordinary kinds of Sweet Peas. So far but a few colors have developed in this type and some of these sport or change more or less in flowering. The wings and standards of the flowers are very large, and its graceful form with the immense size make it certain to supercede all older kinds of Sweet Peas, as fast as standard colors appear and become fixed. In our mixture of this new class will be found deep pink, light pink, orange pink, white with pink edging. Every lover of Sweet Peas should plant our Countess Spencer Seedlings; lb, 35c.; 10 lbs. \$3.00.

SWEET PEAS—Continued.

MAMMOTH VERBENA.

FERTILIZERS—Net Cash.

It is unnecessary to tell our customers that Chicago is recognized as headquarters for commercial fertilizer. Here is to be had material for the manufacturing of fertilizer in large quantities and of highest grade. We have made special arrangements by which we are able to offer this article at the lowest wholesale price, and solicit correspondence from parties wishing large quantities. We can save you money if you buy by the sack, ton or carload. Every bag and barrel has a guaranteed analysis. We handle all brands.

Fertilizer Prices Vary. Write for Market Price.

and fruit crops with excellent results. 1-lb. pkg., 10c; 3-lb. pkg., 25c; 5-lb. pkg., 40c; 12½-lb. pkg., 85c; 100-lb. keg, \$6.00 in bulk.

Tobacco Dust. If dusted on while the foliage is moist it destroys rose lice, cabbage and turnip fleas, etc. Spread upon the ground it keeps off all earth insects, and also acts as an excellent fertilizer. 1-lb. pkg., 10c; 5-lb. pkg., 25c; 10-lb. pkg., 30c; 100 lbs., \$2.00.

Tobacco Stems. For fumigating plants infested with greenfly. Bale of about 100 lbs., \$1.50; bale of about 200 lbs., \$2.75; bale of about 400 lbs., \$5.00.

INSECTICIDES.

Slug Shot. This well known preparation has been in use for a quarter of a century or more and its popularity does not diminish. It is a standard insecticide everywhere. It can be used on all sorts of vegetation, in the flower garden, on fruit bushes, trees or anywhere where the insect pest appears. 5-lb. pkg., 20c; 10 lbs., 40c; 100 lbs., \$4.00; in pkgs., \$3.50 in bulk.

Bug Death. This preparation we highly recommend. It is sure death to the potato bug and all other vegetable pests, and besides it acts as a fertilizer. We have many testimonials at hand from large vegetable growers, and we feel much confidence in offering it with our endorsement to any of our customers who want a quick-acting non-poisonous bug killer. It can be used on all vegetable

The Barker Weeder and Mulcher.

WE OFFER HERE something entirely new. It is so different from any other style of Weeder that it commands instant attention. It operates on the plan of a Lawn Mower. The blades revolve, chop the surface of the soil, destroy the weeds and leave a mulch which holds the moisture to feed the plant. **MARKET GARDENERS** take this tool on sight. They appreciate the importance of the work it will do and the money it will save them

**The Lower Knife in Connection with the Revolving Blades
Kills Every Weed.**

them in place of the others with much gain. It was well on toward the end of the weeding season when this change of tools was made and I am fully convinced, that had I secured the Barker tools at the beginning of the season, our expense for weeding would have been cut in half. My recommendation of this tool to other large growers induced them to try it and they found it as satisfactory as I did. It will do excellent work in all market garden crops.

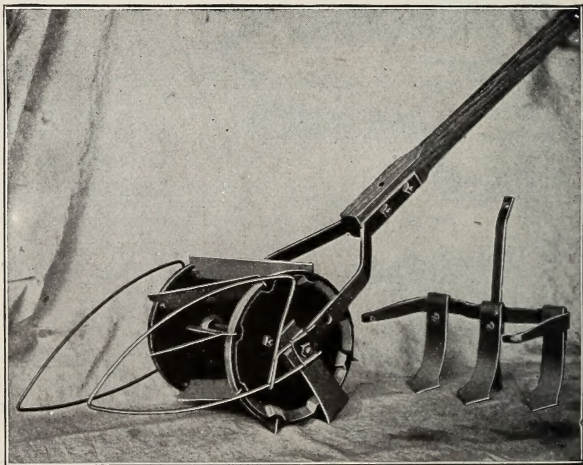

The Onion Set Crop is probably the most expensive one to weed of any grown in this country. With this in mind the following from one of the largest growers of that crop speaks well for the Barker Weeder and Mulcher:

When I first saw the Barker Weeder and Mulcher I did not think it would do any better work than some others that I already had in use. I was impressed, however, by its peculiar construction and decided to give it a trial. We had thirty-five hand cultivators going on our onion set farm the day I took the Barker tool out. On my way to where the force was working I had a chance to try the tool in several different places and became satisfied that for our work it beat anything we had. In order to test it alongside of the others I called the foreman and bid him take the Barker and accompany some of his best hustlers who were working other tools. It took him a little time to get the hang of the Barker, but as soon as this was accomplished he clearly demonstrated that two rows could be done as easily with it as one could be done by any of the others. I therefore secured a quantity of the Barkers and used

S. F. LEONARD, Chicago.

The weeding between rows of a garden crop must be done whenever necessary right up to the time of harvest. The Barker Weeder and Mulcher is fitted with an adjustable pair of wire leaf guards which lift the tops of the vegetable out of the way of the knives and permit the machine to go in between the rows at any stage of the crop's growth. The illustration shows how these leaf guards are adjusted, and the simplicity of their construction and the ease with which they can be put on or taken off makes easy work when changing from a crop that needs them to one which does not.

The Barker is made in 3 sizes. Viz: 6-inch cut, 8½-inch cut, and 11-inch cut. Each machine is fitted up with leaf guards and tooth attachment. The 8½-inch cut is the standard size for onion sets and ordinary market garden crops. The 6-inch is for lettuce and crops that are planted in close rows. The 11-inch for crops that are planted from 14 to 18 inches apart in the rows.

**For Deep Cultivation You Can Adjust the Tooth
Attachment Without Delay.**

Price Either Size \$3.75. In Lots of 5 or More, Each \$3.50.
